Additional Information

Mediation provides an opportunity to resolve a dispute in a matter of hours, rather than languishing in the court system for months or even years. Over thirty years of litigation practice has given me a hands-on basis for understanding the needs of the parties in a dispute. Having represented both sides as an attorney enables me to bring a balanced approach to the negotiation process. My ADR style is based upon a belief that the purpose of mediation is to assist the parties to find a resolution of their respective needs. My background and experience enable me to be either facilitative or evaluative as the circumstances require.
